

"Through Alliance We Achieve"

About us

Allied Logistics, Inc., is a full service provider of logistics and transportation services focused on providing our customers with the most responsible, reliable, and responsive, 3PL services available. Our company places special attention on delivering value added services to our shipper and carrier customers to help them achieve their goals.

Allied Logistics was founded by Milton Kirby, a young man who dreamed of becoming a successful transportation entrepreneur. A Certified Public Accountant (CPA), Milton left corporate America after acquiring a small fleet of trucks in the mid 1990s. The acquisition turned into a nine year long-haul trucking business, which was sold in 2004 to open Allied Logistics, Inc. Immediately after forming Allied, Milton adopted the use of strategic alliances as a growth strategy. Over the years this management decision proved to be a powerful weapon in the war to gain and sustain a competitive edge. This resulted in establishing Allied as a uniquely diversified transportation company.

Today, Allied Logistics has a reputation built on excellence in logistics for providing comprehensive supply chain solutions for customers in both traditional and nontraditional industries. Allied understands the vital role its services play in a customer's business and has the capacity to plan and immediately implement supply-chain solutions. Allied's experienced team of professionals excel at providing customized transportation services to industries of all types.

With more than 350,000 square feet of warehouse space, Allied Logistics can help you preserve your space as you manage your inventory business cycles and peak demand periods. You can also use our facilities to meet your on going warehousing space requirements.

"Through Alliance We Achieve"

Across Town, Country, and International Borders

As national markets merge into a single global economy, utilizing international suppliers is an increasingly viable option for many companies. In order for your big picture to make sense, the chain of distribution from your supplier to your customers must be fluid, unbroken and clearly visible.

This is why we ensure that the international solutions that we provide offer the same flexibility and cohesion as our domestic transportation and supply-chain solutions.

Whether your need is to import or export, put our team of experts to work for you. We offer comprehensive solutions for your international shipping needs.

Import/Export

- ◆ International Freight Forwarding
- ◆ Customs Brokerage
- ◆ Containerization
- ◆ Container Load/Unload
- ◆ LCL Consolidation
- ◆ Cargo Insurance
